E.A.T. /Engadin Art Talks

The art world equivalent of joining a small Silicon Valley gathering including Bill Gates, the Engadin Art Talks unite the most influential art and architecture thinkers in a cozy mountain setting. This year's luminaries include the iconic architect Rem Koolhaas, the Serpentine Gallery's Hans Ulrich Obrist, curator extraordinaire Bice Curiger and Swiss artworld wondergirls Claudia Comte and Mai-Thu Perret . Perfect art hobnobbing for purists. This year's theme, 'Side Country Side', addresses the artistic interpretation of landscape outside of the urban context.
